Group Teamwork Agreement for Group # __199__

Communication and collaboration
We will use Discord for regular communication, Zoom for online meetings, and GitHub for project files. Everyone will check messages regularly and respond within 24 hours.

Meetings and progress updates
We will meet once a week for approximately 45–60 minutes at each Saturday morning, 9 a.m.. Meetings will begin at the stated clock time. Each member will come prepared to explain their progress, difficulties, and next steps. If a meeting is unnecessary, everyone will post a brief update by the scheduled meeting time.

Attendance
Members who cannot attend will notify the group at least 24 hours beforehand whenever possible, or as soon as possible in an emergency. They will provide a progress update, review the meeting notes, and complete any assigned follow-up work.

Roles and fair division of work
We will divide research, data preparation, analysis, writing, and editing according to each member's availability and skills, while keeping the overall workload fair. Each task will have a named person responsible and an agreed deadline. Everyone will review and understand the final analysis and report.

Deadlines and difficulties
We will aim to finish assigned work at least 24 hours before the submission deadline to allow time for review. Anyone who expects to miss an internal deadline will inform the group immediately, explain what remains, and agree on a revised plan or redistribution of work.

Satisfactory participation
Each member will attend meetings, contribute ideas, complete accurate work on time, respond to feedback, and help review the final submission. We will keep a shared task list to record responsibilities and progress.

Respect and decision-making
We will listen to everyone's ideas, give constructive feedback, and communicate respectfully. We will discuss disagreements using evidence and course concepts, aiming for consensus.

Insufficient participation and group issues
We will raise concerns promptly and respectfully with the member involved and agree on specific corrective actions and deadlines. We will contact the teaching team asap when issues arise.

Final review and submission
Every member will review the final work before submission. Each member will submit their own assigned tasks to the GitHub branch and submit a Pull Request for review. Norris Wang will do the final merge.

Declaration of Agreement

We, the members of group __199__, will participate effectively in this group as we prepare our final project, over the course of the Fall 2026 term. This will include:

- *Acting in accordance with our group agreement, as outlined above.*
- *Attending group meetings on time.* If I must miss a group meeting, I will inform my group members ahead of time.
- *Coming prepared to share with my group.* If I am unable to prepare and/or complete agreed to work by the meeting, I will let my group know as soon as possible and take on additional work as needed to make sure everyone contributes a fair and equal amount to this project.
- *Being an active listener and participant.* I will ask for clarification if I do not understand something, and I will encourage all group members to speak up and share their views.
- *Giving constructive feedback, but not being unhelpfully negative.* I will comment on strengths and areas for improvement, when relevant.
- *Being respectful and professional at all times.*
- *Alerting the STA302 teaching team to any issues with our group so they can support their resolution.*

By completing the information below, each member agrees to abide by the group agreement and to contribute equally to the completion of the final project.

Name (as it appears on Quercus)	UofT email address	Date signed
Samario Liu	samario.liu@mail.utoronto.ca	2026/11/7
Rui Su	suzy.su@mail.utoronto.ca	2026/11/7
Norris Wang	norris.wang@mail.utoronto.ca	2026/11/7

Once completed and signed, upload a PDF copy to your Quercus group page and submit a copy with your Final Project Part 1 submission.
